To the Atma Environmental Team -

Thank you for your report on the proposed purchase of the property for us recently.

The property was a disused service station in Far East Gippsland.

I discovered Atma on the net as a result of an environmental search. Your Company was first listed.

Your Company was fast & efficient in the way you assessed the property.

In your comprehensive report it became apparent that we had to look at all possibilities,
which Rory was quick to point out.

As a result we have made substantial savings on our investment.

Thanks again for the great job.

Best Regards

Michael Wyatt

Bayside Machinery Director
