Hi Glenn

I have been on leave – apols for delay.

I haven't had time for detailed review but on prelim review, all good.

I should add, compared to some of your competitors, ATMA's reports which are both concise and arrive at a clear conclusion / professional opinion in easy to understand terms (as opposed to leaving it up to the reader) are appreciated.

Regards

Stephen Lake

Hi Stephen,

Rather than call I thought I would just email you and extend an invite for any feedback regarding above project.

As always, please let me know any concerns in the way the work was completed or feedback from the client or occupant.

Regards,
Glenn Berry, *CEnvP*
