Glenn Berry
Director | Principal Environmental Consultant
Atma Environmental
E-mail: gberry@atmaenvironmental.com

Dear Glenn,

RE: Reference letter

I'm writing to thank Rory McPhillips and the team at Atma Environmental for the high quality of service provided as part of the *Detailed Soil Investigation: Proposed Storm Water Harvesting System at Gordon Barnard Reserve, Balwyn North*.

Rory's level of communication and flexibility during the bid, site investigations and in devising solutions and work arounds to challenges on the fly have been greatly appreciated. These services have been supported by a thorough and clearly articulated technical report. Together, Atma's timely and cost effective support has helped ensure that the project stays on track.

I look forward to working with Rory and the team at Atma Environmental in the future.

Kind regards,

Simon Roberts

Civil Engineer
