Dear Mr. Berry;

Re.: Referee – Environmental Inputs (Planning Side)

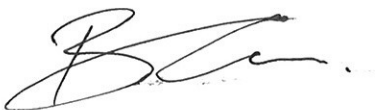

I would like to thank you for your recent work in the preparation of expert witness evidence relating to the Greenvale R1 Precinct Structure Plan (Amendment C119).

The briefing that you provided the legal team and me facilitated a fast take up of the key issues surrounding the site and demonstrated excellence in communicating technical issues to a non-technical audience.

Your Expert Witness Statement submitted was extremely concise and readily understandable which mitigated the need for cross examination.

Atma Environmental has been providing a range of environmental (contaminated land) consulting services to Peet since 2004. Based on our experience with Atma Environmental I am happy to recommend you to any prospective clients.

Kind Regards
