ABBOTSFORD 3067

Dear Rory

Re: Tier 1 Landfill Gas Risk Assessment

I wish to acknowledge the high professional standards set by Atma Environmental in the successful completion of a Tier 1 Landfill Gas Risk Assessment for my property in Yarraville, Victoria.

The requirement for completion of a landfill gas assessment arose as a condition on a Maribyrnong City Council Planning Permit for an extension to a residential dwelling, as my property was identified as being within 500 m of a former landfill.

The fixed fee cost provided by Atma Environmental was less than estimates provided by others and provided comfort on the ultimate project costs.

The project management by Helena was both professional and friendly.

The final report was clear, comprehensive and completed within a short timeframe.

The report was submitted by council to EPA for review and authorisation, and successfully satisfied the planning condition without need for further comment or clarification,

I would happily recommend Atma Environmental to others.

Yours faithfully
