Re: Letter of appreciation and thanks to Atma Environmental from GRONO GROUP

Dear Mr Berry,

I am writing to you to convey our appreciation of the excellent, highly professional services delivered by you and your team at Atma Environment for our clients at Grono Group in November and December 2022.

I would like to especially thank you and your team for your transparency and clarity during our engagements. You were so flexible and able to meet our client's tight timeframes whilst providing high-calibre services that exceeded our expectations. Your fantastic leadership and dedication to the area of environmental consulting services are commendable. I would also like to thank Kyle O'Brien, Senior Environmental Scientist and Emily Thong, Graduate Environmental Consultant from your team who we also worked with closely for their professionalism and commitment to getting the job done.

We look forward to working with you and your amazing team in the near future and we would definitely recommend Atma Environmental to any of our partners/contacts seeking quality environmental consulting services.

Yours Sincerely,

Ramy Farjou
Director
Grono Group
