**Subject:** RE: Invoice INV-2140 from Atma Environmental / Re: 2042 Sale SSA

Hi Glenn

I am very sorry for the delay – this email was lost in my inbox.

Thank you for your efforts with the Sale College desktop analysis. From my perspective, the reports provided by all consultants were well detailed and the covering/location letter prepared by Atma gave a great summary of the risk and opportunities for determining the potential school location. This information was provided to our PDC's who are master planning the school and the feedback received to date has been positive. We are all very grateful for the quick turnaround of your advice as this has allowed us to hit the ground running with our discussions with Council.

The school master planning is still underway to determine the preferred site configuration and location however once this is completed, we will be looking to complete SSA fieldworks on the preferred site. We would love to build on the work already completed by Atma so let me know if this is of interest and I will give you a call once we have a better idea of timings for these works. I expect it will be around late November/December.

Invoice INV-2140, has been submitted for payment and I have been advised that it will be paid on Friday. Please let me know if you don't receive and I will chase up.

Kind regards,

Georgia Murray | Program Manager | Land Acquisition  
Victorian School Building Authority

Hi Georgia;

I had hoped to follow up with you following the completion of this work but did not have a mobile number for you.

Trusting all was to your satisfaction but would be pleased to debrief and receive any feedback.

Meanwhile would you please confirm our below invoice from August was processed?

Many thanks,  
Glenn Berry, *CEnvP*
